

ABSTRACT

The Drink Pouch with Inner Snap-on Straw/Spout is an invention for drinkers to drink from a pouch without the traditional straw. The user of pouch can tear the pouch from the corner, and snap-on the two corner sides to create a drinking spout environment. This invention can eliminated accompany of a straw in the traditional drink pouch market. The one piece drink pouch, can be easier to market as well as create a unique way for users to experience their drinks.
